

MANIKANDAN DURAIRAJ

Full Stack Developer | React.js & Node.js | 3+ Years Experience
(+91) 6374453187 | haridurai1234@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 3+ years of experience designing, developing, and deploying scalable web applications for US-based clients and enterprise platforms. Seeking a Full Stack Developer role in a product-based or service-based company. Proficient in React.js, Node.js, Angular.js, MongoDB, PostgreSQL, and AWS cloud infrastructure. Experienced in leading cross-functional development teams, mentoring junior developers, building secure RESTful APIs, and delivering end-to-end projects in Agile environments.

TECHNICAL SKILLS

Frontend: React.js, Angular.js, Next.js, HTML5, CSS3, JavaScript (ES6+), TypeScript, Redux, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, RESTful API Design, GraphQL

Databases: MongoDB, PostgreSQL, SQL

Cloud & DevOps: AWS (EC2, Elastic Beanstalk, S3, CloudFront, SNS, SQS), Docker, Jenkins, Kubernetes

Auth & Security: JWT, OAuth 2.0, Data Encryption, Role-Based Access Control (RBAC)

Soft Skills: Team Leadership, Cross-functional Collaboration, Agile/Scrum, Stakeholder Communication, Code Review, Mentoring

PROFESSIONAL EXPERIENCE

Full Stack Developer Lead

Apr 2026 – Jun 2026

Dvilitte

Bangalore, India

- Led a cross-functional React.js and Node.js team of 4 developers, defined sprint goals, technical architecture, and code review standards — delivered Konnectly platform 2 weeks ahead of schedule.
- Mentored 3 junior developers through structured pair programming and code reviews, reducing team bug rate by 35% within the first month.
- Owned end-to-end delivery of Konnectly CRM — from requirement analysis and system design through AWS deployment — cutting manual business operations effort by 50%.

Junior Software Developer

Jan 2025 – Feb 2026

Angler Technologies Private Limited

Coimbatore, India

- Developed a full-featured IMS-QMS Audit module for KSB India Private Limited, digitizing quality management processes and reducing manual audit effort by 40%.
- Built a role-based access control (RBAC) user management system with 5+ permission levels, ensuring full compliance and audit traceability across the platform.
- Deployed and maintained production infrastructure on AWS (EC2, Elastic Beanstalk, S3, CloudFront, SNS, SQS), achieving 99.9% uptime over 13 months.

Junior Software Developer

Jul 2023 – Sep 2024

Toverto Solutions Private Limited

Coimbatore, India

- Delivered full-stack features for 2 US-based clients (Cotton Foundation & Landry's Select Club) using React.js, Angular.js, PostgreSQL, and Firebase across Agile sprints.
- Integrated 5+ third-party APIs for Landry's Select Club loyalty program, increasing user engagement features and reducing integration development time by 25%.
- Implemented OAuth 2.0 and data encryption protocols for customer PII, achieving zero security incidents across both client platforms post-launch.
- Collaborated with QA teams to identify and resolve 30+ critical issues prior to production launches, ensuring seamless cross-platform user experience.

Web Developer Intern

Mar 2023 – Jun 2023

DotWorld Technologies

Coimbatore, India

- Built and maintained responsive web interfaces using HTML5, CSS3, and JavaScript; resolved 20+ bugs through systematic debugging and cross-browser testing.

KEY PROJECTS

Konnectly – AI-Powered CRM & Business Communication Platform

Technologies: React.js, Node.js, Express.js, MongoDB, AWS

- Built a full-featured CRM enabling businesses to manage customers, send bulk WhatsApp/email messages, automate follow-ups and generate invoices — serving 100+ business users at launch.
- Integrated an AI employee system for customer service and content automation, reducing manual response effort by 50%.
- Implemented audience segmentation for targeted outreach based on CRM data, improving campaign delivery precision.

- Deployed on AWS with EC2, S3, and CloudFront, ensuring scalable, low-latency access for distributed users.

KSB India – IMS-QMS Audit Management Module

Technologies: React.js, Node.js, Express.js, MongoDB, AWS

- Delivered an enterprise audit platform for a global industrial manufacturer with configurable checklists, role-based workflows, and real-time compliance tracking.
- Reduced audit reporting time by 40% by replacing paper-based processes with a fully digital, traceable audit management system.
- Designed and implemented masters configuration for audit checklists, department workflows, and process controls — enabling zero-code customisation for admin users.
- Built a secure user management system with 5+ permission levels and access controls, ensuring regulatory compliance and complete audit traceability across all modules.

Landry's Select Club – Loyalty Platform (USA)

Technologies: Angular.js, AWS (EC2, Elastic Beanstalk, S3, CloudFront, SNS, SQS)

- Spearheaded integration of 5+ third-party APIs for loyalty points, notifications, and reward redemptions, improving program engagement by 30%.
- Designed intuitive UI/UX flows to streamline member navigation, reducing average task completion time across key loyalty journeys.
- Implemented OAuth 2.0 and data encryption protocols for sensitive customer PII, achieving zero security incidents post-launch.
- Collaborated with QA teams to identify and resolve complex issues pre-launch, ensuring a stable and performant production release.

Cotton Foundation – Web Platform (USA)

Technologies: React.js, Angular.js, PostgreSQL, Firebase

- Contributed as a Full Stack Developer on a large-scale US agricultural web platform, building new features and maintaining existing modules across React and Angular codebases.
- Delivered performance optimisations that reduced page load time by 25%, improving user experience across desktop and mobile platforms.
- Resolved 30+ critical bugs pre-launch in collaboration with QA, ensuring seamless cross-platform user experience.
- Integrated Firebase for real-time data sync and notifications, enhancing responsiveness and reliability of key user-facing features.

EDUCATION

B.E – Computer Science and Engineering

Karpagam College of Engineering

CGPA: 7.1 | Relevant Coursework: Data Structures, DBMS, Operating Systems, Computer Networks, Software Engineering

2017 – 2021

Coimbatore, India

CERTIFICATIONS

The Full Stack Web Development Bootcamp

Java Programming for Complete Beginners

Udemy | Jan – Jul 2024

Udemy | Mar – Jul 2023
